RE: Lowestoft Flood Risk Management Project – Tidal Walls – Scaffold Installation

Dear Sir/Madam,

We are writing to let you know about some upcoming weekend works on Hamilton Road. In order for us to move on to the next phase of works we require some scaffolding to be installed. This will be done on the following dates:

- Saturday 27th and Sunday 28th November 2021
- Saturday 4th and Sunday 5th December 2021

We are not expecting any excessive noise or disruption while we carry out these works however, we do apologise if any inconvenience is caused.

The Lowestoft Flood Risk Management Project, when completed, will provide protection from flooding to over 1500 homes and 800 businesses. The Town currently has no formal flood defences to prevent flooding from the sea. These weekend works are a vital step in the development of the flood walls and will also help to minimise disruption to traffic through the Town during the day.

If you have any questions during the works, please contact our 24-hour Helpline on 0800 121 4444 or email help@balfourbeatty.com.

Yours Faithfully,

Tom Farley

Project Manager, Lowestoft Flood Risk Management Project
